

We've heard of some extra lucky men going away to-day for the holiday.

They're taking our good \$5 suit cases packed with bathing suits, \$3 to \$5; negligee shirts, \$1.50 to \$3.50; linen duck trousers, \$5.50; tennis shoes, \$1 to \$6; and everything else men wear on an outing. Hope you're one of them.

The chief bargains left among those boys' markdowns are in double-breasted and Norfolk suits at \$4.75 and sailor suits at \$3.50.

HU-S-SH! LETTER FROM SPAIN

EVERY ONE ON THE EAST SIDE
THINKS HE HAS THE ONLY ONE.

Pools Made to "Rise the Seize" of a Value
at an English Station—Cables Sent to
Prisoner in Madrid—Florrie Sullivan
Didn't Blame "Cops" Waiting Game.

The police says that they have discovered
a first cousin of the green goods game
on the East Side. The district has been
flooded recently with letters which appear
to be written with pen and ink, but which
are really manifolded, in which the writer
offers to make rich quick those who will
help him out of a little difficulty in Spain.
Max Kaufman, a wealthy wholesale glass
dealer at 65 Ludlow street, got one of the
letters yesterday. It read:

MADRID 27-5. Sir: Arrested by bankers,
I beg your aid for to recover a trunk with 50-
000 pounds deposited at an English station,
being necessary to rise the seize of my bag-
gage by paying to the tribunal some ex-
penses in order to take to you charge a valise
in a secret of which I hidden a check of 2,500
pounds payable to bearer and the ticket of
the trunk necessary for to remove it at the
station.

I will reward you with the third part of the
amount. I cannot receive your answer at
prison so it must be sent to my old servant
by a cablegram thus addressed:
"Benito Lasa, Calle Conde Ibaño, Madrid."
Being not sure that you may receive this
letter, I await your answer to sign full name
S.

Please answer by cable not by letter and by
cable please sign with this name, "Albert."

The letter bore the Madrid postmark.

Some of Kaufman's friends wanted to
enter into partnership with him to secure
the trunk and valise, but he refused to bite.

The Hon. Florrie Sullivan received one
of the letters yesterday afternoon, and

KEEP COOL, MEN!

Here is one man's way, as told yesterday by The SUN:
LIVE TOPICS ABOUT TOWN.

Men can dress almost as they please in the hot weather, and they do it usually in the way that will best keep them cool. That was probably the idea of a passenger in a trolley car on one of the hottest days last week. He wore a black derby that almost smoked with heat and his cutaway suit looked like fairly heavy cloth. His scarf was tied high about a standing collar. The sight of him in such hot weather was enough to send up the temperature several degrees. He wore, however, an expression of perfect certainty that his dress was all right for such hot weather. For he had on a pair of white linen shoes!

And shoes ARE important—very; but RIGHT CLOTHING is the very beginning of Summer comfort. Here are best sorts for holiday wear, and for all other hot-weather days:

Blue or black Serge Suits at \$15. Single and double-breasted blue and black Serge Coats, at \$5 and \$6. Double-breasted Blue Serge Suits at \$15, \$18 and \$20. Outing Trousers of wool crash, flannels and tropical worsteds, at \$4, \$5 and \$6.50. Neat double-breasted black Serge Suits at \$18. White Flannel Trousers with belt straps and turn-up bottoms, at \$5, \$6 and \$6.50. Outing Suits of stylish crashes, flannels or tropical worsteds, at \$12 and \$15. Second floor, Fourth avenue.

when his secretary, Max Levine, opened it, he became excited.

"Florrie," he shouted, "you are a rich man."

After Florrie read the letter he said: "This is the first time any one took me for a Spaniard. I would go over to Spain myself for this money, but as Big Tim is going to Ireland and it wouldn't do for the two of us to be away at the same time I will have to let it slide."

The Hon. Phil Wiseg was another recipient. His friend Charlie Wagner, the Grand street dry goods man, was convinced that the letter was genuine and offered to pay half the expenses to get hold of the baggage.

"No," said Wiseg with a sigh, "I fell for that game before. If I ever got all this money I would get an attack of heart disease. I can't take a chance."

Max Eisner, the Grand street Delmonico, also received one. He turned it over to Lawyer Otto A. Rosalsky for an opinion.

In Hester, Essex and other East Side streets the letters were taken seriously and pools were made by those anxious to get the third of the fortune. Joe Levy,

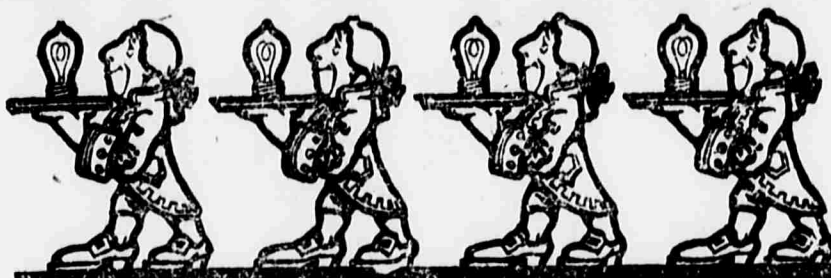

the Duke of Essex street, was frantic with joy when he got one of the letters. He immediately rushed to a cable office and sent a message as requested. At a late hour last night he firmly believed that he was the only man who got one of the letters.

The police have a number of the letters and are awaiting further developments when the scores of persons who called to the Madrid address receive their answers to the same.

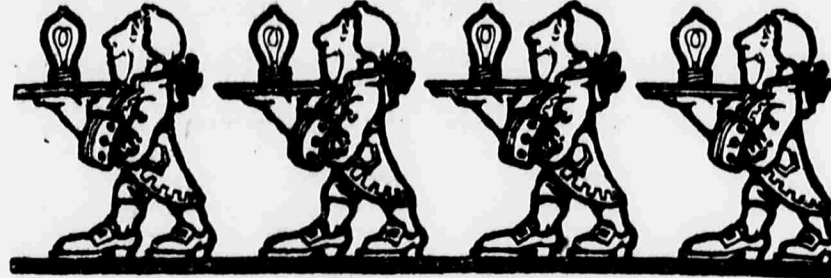

Divorce for Mrs. J. A. Outwell. STAMFORD, Conn., June 26.—Emma L. Outwell, formerly Emma L. Simpkins of New York, secured a divorce to-day from Joseph A. Outwell of Riverside by Judge Shumway.

Mr. Outwell lives in New York in the winter, owns a yacht and is rich. The evidence against him was in the form of endearing love letters begun "Dear Darling," "Dear Sweetheart," etc. Some of them were addressed to Mrs. Hanley, 348 West Thirty-eighth street, New York, and others to a Newburg woman.

Mrs. Outwell gets custody of their minor children.

"AT YOUR SERVICE"

"AT YOUR SERVICE"

The Reduced EDISON Rates for Light and Power Become Effective To-morrow, Saturday, July 1

The Reduction Is From 15 Cents to 10 Cents a Kilowatt Hour

Electric Light thus becomes the cheapest—utility, maintenance and adaptability considered—of all artificial illuminants. Electric Power, while the cheapest, is also the most economical, convenient, safe, and clean of all motive powers.

Installations may be made without inconvenience. The cost is not great—varying with the character of the work. Where desired, old fixtures can be used.

Modern wiring and appliances are absolutely safe.

In the home the Edison System offers a beautiful light for convenience and decoration. Electric fans in the sleeping rooms mean comfort and sleep at night; in the sick room lessened suffering and speedier recovery. A small motor will run a sewing machine, a coffee grinder, or an ice cream freezer. The cost of all is little; the convenience is great.

The adoption of electric service offers a complete solution of every lighting and power problem.

Brilliant show windows, with bright and attractive stores behind them, invite the interest and confidence of the purchasing public.

Illuminated show cases and counters are the latest forms of advertising display—making valuable in a larger sense every square inch of available space.

Electric signs make lasting impressions for the first purchasing occasion. They tell what you want to say, better than most salesmen can say it, through the night hours when the people are leisurely abroad.

To-day the greatest problem before the manufacturer is exact and definite knowledge of the cost of production. Keen competition requires that each operation in manufacturing be figured to a certainty. This is practically impossible where obsolete power methods are employed.

Contrast hot, dirty, noisy engine rooms, with the attendant dangerous high pressure boilers, with the simple electric motor connected with the mains of The New York Edison Company, and when not in use the motor costs nothing.

The Edison System eliminates all belting and shafting. Whatever the machine used, the motor may be directly attached. More than 50% of the power consumed in New York is lost in belts and shafting.

IN FINANCIAL TROUBLE.

Petition in Involuntary Bankruptcy Against the Lancaster Iron Works.

BUFFALO, June 29.—The Lancaster Mallock Iron Works of Lancaster, N. Y., in involuntary bankruptcy has been filed against the concern, and Wednesday evening Deputy United States Marshal Conklin served the papers in the action upon Frederick

B. Cooley, president of the company. It is said that the financial troubles of the company were caused by the failure of the Freeonia National Bank, which had been carrying it along for some time. When the bank failed the company's credit was exhausted, and it was compelled to turn to the bankruptcy court for relief. The amount of money that the Lancaster concern owes the Freeonia National Bank is uncertain, but it is said to be about \$30,000. How much of this is secured has not yet been disclosed.
